

## Partnering with Broadscope Fund Administrators

### Service

- Broadscope offers a boutique style, high touch model with direct access to senior management complemented by technology that is both innovative and flexible, offering web-based dynamic reporting capabilities for fund sponsors and their investors.
- Immediate turnkey solution for all fund administration needs – provided by experienced professionals with in-depth knowledge of private equity specific accounting, reporting and administrative best practices.
- Broadscope’s client team approach provides one point of contact, multiple levels of review and significant backup from qualified professionals – significantly improving accuracy and timeliness.

### Experience

- Broadscope founders have extensive private equity specific knowledge, industry contacts and a proven reputation for high-quality service, as well as a thorough understanding of the private equity investment process.
- Accounting and administrative professionals remain current with all applicable rules and regulations relating to private equity funds and registered investment advisors.
- Broadscope’s experience with a broad range of private equity funds provides significant insight into industry standards and best practices.

### Efficiency

- Investment professionals can focus on investment activities and fund performance, knowing their fund accounting, reporting and investor needs are continuously monitored by an experienced client team.
- Administrative efficiencies reduce costs for fund managers versus the initial investment in staff and technology, the ongoing costs and related issues associated with building an in-house solution.
- Administrator independence provides an additional layer of comfort to fund investors.
- Broadscope communicates with its clients through a secure portal – the “Client Extranet” – a web-based communications portal with real-time task status monitoring – streamlining the communications flow with fund sponsors globally.
